Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Specification*

1. The disclosure is objected to because of the following informalities: applicant should update the status of the patent applications recited in paragraph 0031 of the specification.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

To replace missing text applicant should amend claim 13 such that in line 1 before "third" is inserted -- first and -- (see the specification paragraph 0046).

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-3, 5, 6, 11, 13, 14, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Saeki (6,378,585 B1).

See the embodiment of Figures 5 and 6.

6. Claims 1, 2, 8-10, 14, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Delobelle (3,111,976).

See the embodiment of Figure 7.

Art Unit: 1733

7. Claims 1-6, 9, 11-14, and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Travers (3,301,303).

8. Claims 1-3, 5, 6, 8, 11, 14, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by French Patent 1.327.810.

See the abstract and Figures. As to claim 14, the bead wires may be monofilaments (p. 1 second column lines 15-16, determined through oral translation).

*Claim Rejections - 35 USC § 103*

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Saeki (6,378,585 B1), or, alternatively, Delobelle (3,111,976), Travers (3,301,303), or French Patent 1.327.810, in view of Holroyd et al. (4,967,821).

See paragraphs 5-8 above. Conventional tire carcass reinforcement element materials meet the claim 15 limitation, as evidenced by Holroyd et al. (col. 1 lines 10-14) for example. It would therefore have been obvious to one of ordinary skill in the art to provide such conventional carcass reinforcement element materials in the above tire.

*Allowable Subject Matter*

11. Claims 7, 10, and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
